PROFESSIONAL EXPERIENCE

Director, Information Technology / AF NAF Chief Information Officer | Air Force Services Center | *Dec 2020 – Present*
Serve as NAF CIO for a $1.2B business serving 52M eligible patrons, overseeing a $140M IT portfolio.

- Spearheaded enterprise-wide digital transformation, migrating critical Oracle ERP to the cloud, reducing infrastructure costs by 60%.
- Directed a $96M IT budget and led a cross-functional team of 95 IT professionals across multi-cloud environments and multi-datacenter locations.
- Implemented enterprise cybersecurity program that reduced risk exposure by 80%; architected strategy to protect 6M credit card transactions per year at 104 installations—achieving Level 1 PCI compliance.
- Partnered with C-suite to launch data-driven initiatives, increasing customer engagement and operational efficiency.
- Oversaw IT integration during organizational restructure, aligning systems and achieving synergies ahead of schedule.

Portfolio oversight includes:

- Oracle ERP supporting 17K+ NAF employees, $686M in NAF payroll worldwide, and $791M in NAF retirement and insurance assets.
- Acquisition system awarding 49K+ contracts totaling $330M annually across the Air Force.
- Hotel management system spanning 87 locations, 23K rooms, and 5.1M+ bed nights generating ~$65M annually.

- Food point-of-sale system facilitating 48.3M meals and $275M in vendor purchases.
- Child & Youth system providing care for 28K+ Air Force children.

Senior IT Program Manager | HQ A1 Digital Transformation Activity, Randolph AFB, TX | *Jun 2018 – Dec 2020*

- Program Manager for the HAF/A1 CRM System—recognized as the largest Air Force-wide Enterprise IT transformation effort; delivered standardized, mission-critical AF HR capabilities.
- Served as Agile Operations Division Chief, overseeing enterprise-level HR IT systems including AF CRM, Human Capital Management Program (Oracle HCM), and AEF Online.
- Exercised 2nd-level supervisory authority over a 50+ member team managing planning, development, and configuration of AF/A1 HR applications.
- Served as Chief Strategist for AFPOA, aligning digital transformation initiatives with HQ A1 strategic objectives to drive enterprise modernization.
- Appointed Integrated Product Office (IPO) Lead under the A1 CIO and Program Executive Officer (PEO) for Business and Enterprise Systems (BES).
- Spearheaded integration of AFLCMC HR Program Office into A1's Digital Transformation Activity, accelerating delivery and agility of HR IT solutions.
- Provided CIO-level strategic counsel to the HQ AFPOA Director and senior leadership on IT planning, resourcing, and execution.

Earlier Roles — Department of the Air Force | Various Locations | *Prior to 2018*

- Chief Engineer
- IT Program Manager
- IT Portfolio Architect

KEY ACHIEVEMENTS

- Led development and execution of a $39M Data Center Lifecycle Management Plan, securing approval from A1/CIO, A1X, and SAF/A6 leadership, positioning core personnel systems for long-term scalability and cloud-readiness.
- Directed enterprise-level IT programs supporting over 2 million global customers, enabling the successful execution of a $16.9M multi-year modernization portfolio aligned with Air Force digital transformation priorities.
- Served as strategic and technical authority for a 72-system cloud migration aligned with the DoD CIO's Cloud Computing Strategy and the Air Force's Data Center Consolidation Plan.
- Managed 200+ mission-critical HR and personnel applications as EITDR Program Manager, overseeing operations, integration, cybersecurity compliance, and lifecycle planning across multiple DoD and non-DoD agencies.
- Eliminated a Category 1 vulnerability and saved $1.1M by leading AFPC/AFPOA network infrastructure modernization, strengthening cybersecurity posture and continuity of operations.
- Served as Contracting Officer Representative (COR/COTR) for the Air Force's first Impact Level 2 Cloud Services and Amazon Web Services IL4 contracts.
- Led enterprise IT procurement reform, drafting acquisition documents that opened buys to full and open competition, resulting in over $2.3M in cost savings on large-scale infrastructure and storage investments.
- Briefed senior Air Force leadership (including SAF/CTO) on enterprise IT innovation, including mobile application pathfinding and cloud strategy.
